Cory Suhr | University of Wisconsin–Madison | 2020–2021 Retail Sales Data

Why This Analysis Matters

2

Which states generated the highest sales for men's and women's products?

3

Which retailers sold the most units in 2020 and 2021?

4

How did product sales change year over year?

5

How did retailer performance change between 2020 and 2021?

6

What sales trends and growth opportunities can leadership identify?
